

CONSTRUCTION UPDATE

AUGUST 2021

GRAND CHALLENGES RESEARCH BUILDING

RECENT ACTIVITIES

- New water line installed
- Storm drain relocated
- New generator pad installed
- New fire connections installed

This **concrete pad** (pictured above) is for a generator that will serve both GCRB and Meinel West.

WHAT'S NEXT IN SEPTEMBER?

- Decommission the existing generator
- Install a new generator
- Basement excavation will start mid-September and last for about a month.
Expect an increased volume of truck traffic entering and exiting the job site this coming month.
- Install caissons at grade for GCRB & bridge to Meinel West
